II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 13,109 tons

3. How much **additional acreage** was disturbed during the past year? None
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

None

5. How much acreage was **reclaimed** during the past year? none
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

None

7. What is the **total disturbed acreage** at years end? 11 1/2 acres

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

We are in the process of reclaiming approximately 40% of our disturbed area, being an area previously used to supply a mine safety project but not used since late 1993. The area is situated to the South and East of our storage area and has been clearly designated on the operational maps.

**NOTE:** Section III., "Additional Information" applies only to large mining operations.

### III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

### IV. Signature Requirement

I hereby certify that the foregoing is true and correct.
